MICHELANGELO

Colour: White

Macroscopic description: Statuario Michelangelo marble is without a doubt one of the most beautiful and precious marbles that are extracted from Carrara's quarries. Statuary Michelangelo marble is characterized by a snow white background that, based on the block, may result perfectly white so its suitable for sculpture. The background of Michelangelo marble may also appear crossed by fine grey and golden veining, giving the stone personality and making it very recognizable in every application and interior design project.

Due to its fine grain, Michelangelo Statuary marble becomes very shiny after polishing, a natural stone that is suitable for interior applications as well as exterior design projects, giving uniqueness and elegance to every kind of design project.
